

Knowledge Bowl is Coming !!!

On Monday, February 13th, Weldon Valley will host the North Central Conference Knowledge Bowl tournament.

This is a contract day for all staff. It is an “All Hands On Deck,” event that literally requires all staff members to pull it off. Please, clear your calendars for that day – no leave days will be granted except unavoidable emergencies for that day.

To prepare students and parents for this unusual day, we would like to do the following:

- Elementary Teachers – please note in your newsletters home between now and Feb. 13th that there will be “no school for students,” on that day and that bus routes will not run on that day.
- We will mention this same thing in our January and February newsletters.
- Secondary Teachers – please begin to mention the “no school for students,” (except those junior high and senior high students who will participate) each ELO day between now and the 13th – we will also make copies of a notice to go home to all secondary parents to be distributed during ELO on Feb. 8th – we know a lot of them won’t make it home, but we will do our best, so please encourage students on that day to inform their parents.
- We will post a banner in a prominent position on our website stating “No school for students,” because of Knowledge Bowl on that Monday.
- Paul is doing an excellent job of preparing for this big event. He will have a 30 minute slot of time on Friday, January 27th, during our in-service time, to review specific assignments for all staff members.
- Paul will be working directly with the kitchen and custodial staff regarding lunches, setting up the gym and any other specific tasks that the day will require of them.

We will continue to communicate as effectively as possible concerning the roles and responsibilities for all staff as we do our best to provide a quality experience as host for the many students and teachers who will be our guests on that day.

Thanks in advance for the hard work and effort it takes to prepare for and execute the job of hosting this event.

-Bob and John
